## "SHANNON" FILES FILING CABINETS

— AND —

## BINDING CASES

THE Shannon System for filing flat papers—such as letters, bills, receipts, etc.—cannot be excelled.

Papers are not loose after being filed, thus making their disarrangement impossible.

Papers can always be conveniently examined without removal from the files, but if desired any paper can be instantly removed without disarranging the other papers.

32-Drawer "Shannon" Filing Cabinet.  
Showing how Papers may be Examined with-  
out Removing the File Drawer.

Investigate Its Merits and be  
Convinced.

# THE RAPID ROLLER COPIER

Instantaneous Copies of any Writing can be  
secured by merely Turning a Crank.

Six legible copies may be taken from one writing when done with a typewriter. If with a pen and good copying ink, twelve legible copies may be taken.

The Copier is **ALWAYS** Ready for Use.

## Rapid Roller Copier.

ST. IGNATIUS CHURCH AND COLLEGE, SAN FRANCISCO, CAL.

(SEE OTHER PAGE.)

# ST. IGNATIUS COLLEGE,

Van Ness Avenue, Between Hayes and Grove,

*SAN FRANCISCO, CAL.*

THIS institution, conducted by the Fathers of the Society of Jesus, was opened for the reception of students on the 15th of October, 1855. On the 30th of April, 1859, it was incorporated and empowered to confer Degrees and Academical Honors in all the learned professions, and to exercise all the rights and privileges common to any other literary institution in the United States. The design of this institution is to give a thorough

**ENGLISH, CLASSICAL, MATHEMATICAL and PHILOSOPHICAL**

## **EDUCATION.**

**IT IS INTENDED FOR DAY SCHOLARS ONLY**

The course of Studies embraces the Doctrine and Evidences of the Catholic Religion; the Greek, Latin and English Languages, Poetry, Rhetoric, Elocution, History, Geography, Arithmetic, Bookkeeping, Mathematics, Chemistry, Mental, Moral and Natural Philosophy. The Study of the French, German and Spanish Languages and Practical Telegraphy is optional.

Besides the Classical, there is a Preparatory and Elementary Department for the younger students. Its object is to qualify the pupil for the higher studies.

This institution, provided with a full staff of Professors, presents the highest advantages for the mental and moral training of the students.

The College having been removed in January, 1880, to its new and permanent location in one of the most eligible parts of the city, extends over a whole square, bounded by Grove, Franklin and Hayes streets and Van Ness Avenue, and possesses the most ample accommodations and improved conveniences for 1,200 students.

The new College Buildings are divided into three principal stories for the three separate departments: the Preparatory, the Literary and Commercial, and the Philosophical and Scientific.

Besides the required Reception Rooms and Offices, large and lofty halls and stairways, several Library Rooms and Debating Halls, distinct play-grounds with covered walks and porticos for the larger and smaller students, the buildings contain a full complement of very capacious school rooms, well lighted and ventilated, and furnished with the most approved modern conveniences. They possess also a large and well appointed Chapel for the Religious Exercises, and a College Hall 100x145 feet internal dimensions, with spacious platform and stage suitably furnished and arranged for Scholastic Exhibitions, Dramatic Representations, Lectures and other public exercises.

The Scientific Department contains lecture rooms for Physics and Chemistry, a Chemical Laboratory and an Extensive Cabinet of Physics, rooms for qualitative and quantitative analysis, engine rooms with magneto-electric machines, battery rooms, complete telegraphic stations, rooms for preparations, balances, spectroscopic studies and other scientific experiments and investigations, Museum of Mineralogy, Geology and choice collections of natural objects and curiosities of different kinds, and it is furnished with a very large and choice collection of Philosophical and Chemical Apparatus ordered from the best constructors of Europe and America, and with all that is necessary for lecture demonstrations and experiments, for private study, and the most complete and delicate chemical analysis and manipulations.

By frequent additions of whatever can be supplied by the best modern inventions, both at home and abroad, this Department has attained a very high degree of completeness and efficiency well calculated to afford to advance students a most valuable opportunity of acquiring a thorough scientific training and education.

**STUDENTS ARE RECEIVED AT ANY TIME DURING THE SEASON  
FROM JULY TO MAY.**

The Institution is Open to the Public, and Visitors are Always Welcome.

For Further Information Apply to the President.
